FAHR Wins Two Awards at the 2026 Mohammed bin Rashid Government Excellence Award

This recognition highlights the FAHR’s continued commitment to fostering a culture of excellence and innovation and accelerating the adoption of artificial intelligence applications in advancing the government human resources ecosystem. Through smart digital solutions, FAHR continues to streamline procedures, enhance the efficiency of services and operations, and strengthen decision-making, contributing to greater institutional agility and future across federal government entities.

The awards also recognise FAHR’s efforts to develop flexible and proactive government work models that place people at the heart of institutional priorities, while investing in government talent, developing capabilities, and strengthen human capital. These efforts are aligned with the UAE Government’s vision of establishing a government model that is more efficient, innovative and competitive.

The achievement provides further impetus for FAHR to build on its accomplishments, expand the adoption of artificial intelligence and emerging technologies and advance government human resources policies and practices. It also reinforces FAHR`s commitments to enhancing the experience of customers and employees and create greater impact on institutional performance, further consolidating the UAE Government’s position as a leading model in anticipating and shaping the future.

FAHR received the awards during a ceremony honoring the winning government entities, leaders and talents, in recognition of their achievements, pioneering practices and contributions to advancing government performance.
