

HR AI Agent

In line with the UAE's vision of **advancing government work through AI**, the Federal Authority for Government Human Resources has launched the pilot version of the **HR AI Agent** at the federal government level. This milestone represents a key step toward eliminating bureaucracy, accelerating digital transformation, and enhancing institutional performance.

The **HR AI Agent** introduces a transformative leap in the government HR ecosystem by providing federal employees with an interactive and seamless experience through:

- Fast and efficient execution of self-service HR transactions.
- Instant, accurate legal consultations without human intervention.
- Intelligent analysis of employee data to deliver personalized and precise information.

Accessible anytime, anywhere through the Authority's website and the **FAHR Smart App**, the **HR AI Agent** is designed to empower employees and streamline HR services.
