

“Energy and Infrastructure” honors FAHR as a partner in the “Manzali” Bundle

His Excellency Engineer Suhail bin Mohammed Al Mazrouei, Minister of Energy and Infrastructure, handed over the honor to FAHR’s representatives, Asem Ahmad AL Awadhi, Director of the Human Resources Information System Department “Bayanati,” and Meitha Kolthoum, Director of the Strategy and Future Department.

This came during a special ceremony organized by the Ministry to honor the partners of the “Manzali” Bundle, which reflects the efforts to eliminate bureaucracy, as it is now done through one entity instead of 11, and the required documents are reduced from 10 to 2, and the procedures from 14 procedures to 3.

His Excellency stressed that the honor reflects the commitment of the Ministry and the Sheikh Zayed Housing Program to enhance cooperation with partners to achieve the aspirations of the visionary leadership of the UAE, the targets of the future, and the “We the UAE 2031” vision, pointing to the importance of strengthening partnership between all sectors to achieve national goals, and that the success of the package is the result of fruitful cooperation between Ministry and partners.
